

Enhanced Access Unit

The EAU is a large-size restroom featuring the same tough construction as our Standard unit.

ENHANCED ACCESS UNIT

The Enhanced Access Unit (EAU) provides convenient access for persons who prefer a large portable restroom, and has been successfully used by people in wheelchairs, though not ADA-approved. Thousands are in service, both in the USA and around the globe. Enhanced Access Unit features include:

- Full width handrail assemblies overlap in corners adding strength and rigidity to the unit.
- A pneumatic door closure is balanced by a heavy-duty cable spring for comfortable, predictable access.
- A 1/2" thick polyethylene extrusion floor provides maximum rigidity and near ground-level access.
- A twin-sheet, high-impact polyethylene door is strengthened with steel rods on both sides.

Although the EAU has been used successfully by persons in wheelchairs, no warranty is made, express or implied, that the unit meets the Americans with Disabilities Act (ADA) Accessibility Guidelines. PolyPortables will not be liable for incidental or consequential damages if the EAU is deemed not to comply the ADA Accessibility Guidelines or other accessibility requirements for people with disabilities.

EAU SPECIFICATIONS

Height	82.5" (2.10m) inside, 86.5" (2.20 m) outside
Base, inside	58.5" x 58.5" (1.49 m x 1.49 m)
Base, outside	61" x 61" (1.55 m x 1.55 m)
Door opening	35.5" x 73.5" (0.90m x 1.87m)
Roof	61" x 61" (1.55 m x 1.55 m)
Weight	280 lbs. (127 kg)
Tank capacity	40 gallons (151.42 liters)
Material	High Molecular Weight Polyethylene
