

POLYPORTABLES' STANDARD SIZE RESTROOMS

CHOOSE THE TRIED-AND-TRUE STANDARD, INTEGRA, OR THE DOUBLE-WALLED VANTAGE

Integra

The most popular model in the PolyPortables fleet.

INTEGRA

- Updated version of the PolyStandard unit, sharing sides, skids and interior components with the flagship unit in the PolyPortables fleet.
- Easily integrated into a fleet containing the PolyStandard due to the interchangeability of parts.
- Large door opening gives the appearance of a larger unit, and grants easier, faster access for service personnel.

- Heavy-duty torsion springs are integrated into the hinge system, removing need for door spring & cable and wind-cable.
- Large urinal sits on tank deck, cuts down on clogged waste lines, and reduces splatter from errant users.
- Accepts a wide array of skid options, but comes standard with the one-piece plastic molded base.

All standard size units include a Pro60 Tank, urinal and toilet paper holder

INTEGRA SPECIFICATIONS

Height with Traditional Roof	80" (2.03 m) inside, 89.25" (2.27 m) outside
Height with Keystone Roof	83.50" (2.12 m) inside, 92" (2.34 m) outside
